

Compact Bathroom Heater with Adjustable Temperature

This bathroom heater provides warmth in colder months. It features adjustable temperature settings and overheat protection for safe and convenient operation.

Product Overview

Compact Bathroom Heating Solution

This compact PTC heater is engineered for efficient and safe climate control in small to medium-sized spaces, including bathrooms. Featuring a powerful 2000W output and IP21 drip-proof protection, it ensures reliable performance in humid environments. With advanced safety mechanisms like double overheat protection and a tip-over switch, it combines comfort with peace of mind.

Technical Specifications

Heating Power

2000 W

Power Output

IP Rating

IP21

Dimensions

190 x 140 x 340 mm

Temperature Range

15°C to 35°C

Features & Controls

Key Functions

- Swing oscillation
- Integrated timer
- Dust-proof filter
- Soft handle for portability

Control Interface

Electronic Touch Control, Digital Display, Remote Control (Optional)

Safety Features

Safety Systems

- Double over-heating protection
- Tip-over switch
- Drip-proof design
