

Compact Desktop Dishwasher with Multiple Wash Cycles

This mini desktop dishwasher is designed for small spaces and portability. It offers multiple wash cycles including rapid, intensive, normal, and glass, along with hot air drying and UVC sanitization.

Product Overview

Compact Efficiency for Modern Spaces

This ultra-compact desktop dishwasher is designed to maximize utility in limited spaces such as apartments, dorms, and RVs. Featuring 360° high-pressure spray technology, it efficiently cleans over 30 items, including plates up to 10.5 inches. With a focus on sustainability, it uses only one-third of the water compared to traditional hand washing, while offering advanced features like UVC sanitization and hot air drying.
