

Compact Electric Fireplace with LED Flame Effect

This compact electric fireplace provides supplemental heat and a realistic flame effect. The unit features adjustable heat settings and flame brightness controls for customized comfort and safety.

Product Overview

Compact Electric Fireplace

The VESTA 1Z is a compact electric fireplace designed to provide supplemental heat and a realistic flame effect. Featuring a durable red finish, the unit houses simulated logs and an LED-based flame display to mimic the ambiance of a traditional fireplace. This energy-efficient heating solution is perfect for small to medium-sized rooms, offering adjustable settings for a customized experience.
