

Compact Electric Rice Cooker

This compact electric rice cooker is designed for small households or individual use. It features a non-stick inner pot for easy cleaning and automatically switches to keep-warm mode after cooking.

Overview

Compact Electric Rice Cooker

This compact electric rice cooker is designed for small households or individual use, featuring a non-stick inner pot for effortless cleaning. It utilizes microcomputer auto-controlled vague logic to ensure optimal results across different cooking modes like quick and slow cooking. With a 1.5L capacity and a convenient keep-warm function, this unit combines modern design with practical, everyday kitchen performance.
