

Compact Garden Tiller

This mini-tiller is a compact and lightweight machine designed for small-scale tilling and soil preparation in gardens and yards. Powered by a 1E40F-5AG engine with a displacement of 42.7ml, it delivers 1.25kw of power at 6500rpm.

Overview

Compact Garden Tiller Overview

This compact garden tiller is engineered for efficient soil preparation in small-scale environments such as flower beds, vegetable patches, and home gardens. Designed for versatility, it excels at farmland correction, sowing, turning, and digging tasks. Its lightweight construction and powerful engine ensure ease of maneuverability while maintaining the performance required for reliable garden maintenance.
