

# Compact Multi-Line Laser Level

This compact laser level is designed for indoor use. It projects one 360° horizontal line and one vertical line.

## Overview

### Compact Multi-Line Laser Level

This compact 1D 1V multi-line laser level is designed for precise indoor layout tasks, such as hanging pictures, drawings, and room alignment. Featuring a Class II red beam with a 660nm wavelength, it projects one 360° horizontal line and one vertical line for comprehensive coverage. With self-leveling capabilities and a slope locking mode, this device is an essential tool for accurate indoor construction and decoration projects.

## Laser Performance

### Laser Class

Class II • Red Beam

### Wavelength

660 nm

### Projection Pattern

1 x 360° Horizontal Line + 1 Vertical Line

## Operational Metrics

### Key Operational Metrics

**10 m**

Indoor Range

**1.5 mm/5m**

Accuracy

**3 °**

Self-Leveling Range

### Slope Locking Mode

Yes

## Power & Environment

### Protection Class

IP54

### Power Supply

DC 4.5V (4x 1.5V AA Batteries)

### Working Temperature

-10°C to +40°C

## Accessories

### Included Accessories

- Color box
- Batteries
- Instruction manual

### Optional Accessories

360° rotation base, Tripod
