

Compact Off-Road Dirt Bike

This compact dirt bike features a camouflage design and is suited for off-road use. It has knobby tires, a front disc brake, and a simple suspension system.

Product Overview

Compact Off-Road Performance

This compact dirt bike is engineered specifically for off-road enthusiasts and younger riders. Featuring a durable steel frame and a specialized camouflage design, it balances lightweight construction with rugged capability. With key safety and performance features like disc brakes and a low seat height, it offers a stable and accessible riding experience for recreational use.
