

Compact Personal Electric Heater

This compact heater is designed for personal and localized heating. It features adjustable thermostat control, multiple heat settings, and a safety overheat protection system.

Product Overview

Compact Comfort Heating

The FHL-03 series heater offers a versatile solution for localized climate control in small spaces like offices or bedrooms. With dual heating power settings and an integrated cool-fan mode, it provides year-round utility. Safety is prioritized through an automatic overheat cut-out feature, while the adjustable thermostat ensures precise temperature management.
