

Compact Personal Space Heater

This compact space heater is designed for personal use, providing warmth in small spaces. It features a front grill for heat dispersion and top-mounted control knobs.

Overview

Compact Personal Space Heater

Designed for efficiency and safety, this compact personal space heater features an electronic controller for precise temperature management. Its 90-degree swing function ensures even heat distribution, while the PTC self-regulating heating element offers superior safety. Built with fire-resistant PBT materials and automatic overheat protection, it provides reliable warmth for small areas.

Performance & Features

Oscillation	Yes
Swing Angle	90 degrees
