

Compact Personal Space Heater

This compact space heater is designed for personal use. It features a PTC (Positive Temperature Coefficient) heating element for efficient and safe heating.

Product Overview

Compact Personal Space Heater

The PTC02-N is a highly portable space heater designed for personal comfort in offices and small residential spaces. Utilizing advanced Positive Temperature Coefficient (PTC) technology, it provides efficient, consistent heating while maintaining a compact form factor. With integrated safety features including overheat protection and a tip-over switch, it is an ideal solution for reliable local heating.

Technical Specifications

Heating Technology	PTC (Positive Temperature Coefficient)
Finish and Housing	Silver finish, durable plastic housing
Portability	Carry handle, Compact design, Lightweight

Safety & Controls

Safety Protections

Overheat Protection • Tip-over Switch

Control Options

- Adjustable thermostat
- Multiple heat settings
