

Compact PTC Fan Heater

This compact fan heater is designed for personal space heating. It utilizes Positive Temperature Coefficient (PTC) heating elements for efficient and safe heat generation.

Product Overview

Compact Personal Heating Solution

The Compact PTC Fan Heater is an efficient, portable solution designed for rapid heating in personal spaces, offices, and small rooms. Utilizing advanced PTC heating technology, it offers consistent and safe performance with adjustable settings to meet varying thermal comfort needs. Integrated safety features, including an overheat sensor and tip-over switch, ensure reliable operation in any professional or home environment.

Technical Specifications

Performance Metrics

750 W

Low Power Setting

1500 W

High Power Setting

Operating Modes

- Low Heat (750W)
- High Heat (1500W)
- Normal Fan Only

Safety & Features

Control Features

- Adjustable thermostat
- Power indicator light

Safety Compliance

Tip-over Protection, Overheating Protection
