Product Overview

Compact Cooling Solution

This compact single-door refrigerator is designed for maximum efficiency and space-saving convenience in smaller environments like offices or dormitories. It features advanced anti-bacterial nanotechnology to preserve food quality longer and energy-efficient architecture to keep operational costs low. With optimized internal space usage and low-noise cooling systems, it offers a blend of performance and reliability.

Technical Specifications

Shipping Capacity

252 PCS
40HQ Loading

Model Number	BD-100UR
Freezer Capacity	100 L
Voltage / Frequency	220V/50Hz or 110V/60Hz
Refrigerant Gas	R600a, R134a
Packing Dimensions	570 x 570 x 880 mm

Product Features

Main Advantages

- Optimized cooling system with extra copper wiring for lower noise
- Anti-bacterial nanotechnology for extended food freshness
- Energy-efficient design for cost-effective operation
- Specialized easy-clean coating
- Customizable exterior colors for brand matching

International Certifications

CE • ROHS • CB • ETL • SASO • GMARK
