Product Overview

Compact Single Door Efficiency

This compact single-door refrigerator is designed for efficient cooling in space-constrained environments. It utilizes advanced concentrated foaming techniques to maximize internal storage volume while maintaining a small external footprint. Engineered with anti-bacterial nanotechnology and quiet compressor technology, it ensures food stays fresh for longer while operating with minimal noise and energy consumption.

Technical Specifications

Model Number	SL-140
Fridge Capacity	111.5 L
Freezer Capacity	6.5 L
Voltage/Frequency	220V/50Hz, 110V/60Hz
Refrigerant Gas	R600a, R134a
Packing Dimensions	475 x 485 x 1060 mm

Logistics & Features

40HQ Loading Capacity

244 PCS

Units per 40HQ

Key Features

- Anti-bacterial nanotechnology
- Ultra-low noise compressor
- Energy efficient design
- Easy-clean interior coating
- Customizable exterior colors
