

Compact Single Tub Washing Machine

This compact washing machine features a durable plastic shell that is rust-proof and operates with low noise. It is designed for efficiency, durability, and water conservation, providing strong cleaning power in a small package.

Product Overview

Compact Laundry Solution

This compact single tub washing machine is designed for efficient and convenient laundry care in space-constrained environments. Crafted with a high-quality plastic shell, the unit is engineered to be rust-proof and durable for long-term use. Its powerful motor ensures thorough cleaning performance while maintaining low noise levels and high water efficiency.

Physical Attributes

Shell Material	Imported high-quality plastic
Corrosion Resistant	Yes

Performance

Operational Noise

Low Noise • Silent Operation
