Overview

Compact Skid Steer Loader

This compact skid steer loader is engineered for high performance in demanding construction and landscaping environments. Featuring a robust chassis design and a powerful, fuel-efficient engine, it offers excellent stability and maneuverability in tight spaces. With a focus on operator comfort and simplified maintenance, this machine is designed to maximize productivity while minimizing downtime.

Performance & Power

Hydraulic System

1 Vertical Power

Gear Pump Type

Engine Compatibility

Diesel

Operator Comfort

Cabin Amenities

- Wider cab design (15-20% more room)
- Front door seal
- Anti-collision cage
- Seat belt
- Optional seat warmer
- Optional air conditioner

Maintenance & Design

Maintenance Accessibility

Easy service access via upper and back hood; major components accessible without moving loading arms.

Operational Features

Attachment System	Hydraulic Couplers for quick and clean attachment changes.
Control System	Pilot joystick with ergonomic handle for high sensitivity and accuracy.
