

Compact Skid Steer Loader

This skid steer loader features a compact structure and flexible mobility, making it suitable for narrow spaces. Its all-wheel drive is ideal for uneven ground, and it can quickly switch between different working devices.

Overview

Compact Skid Steer Loader Overview

This compact skid steer loader is engineered for high performance in versatile construction, landscaping, and agricultural environments. Its compact design ensures excellent maneuverability in confined spaces, while the robust engine provides consistent power for demanding material handling tasks. The machine features an ergonomic cabin prioritizing operator comfort and safety, alongside a durable hydraulic system designed for ease of maintenance and long-term productivity.

Technical Specifications

Operational Data

Parameter	Value
Bucket Capacity	0.36-0.45 m ³
Working Flow	62.5 L/min
Machine Weight	2750 kg
Max Speed	12 km/h
Fuel/Hydraulic Tank	50/50 L

Dimensions

Dimensions and Clearance

Metric	Measurement	Unit
Max Operating Height	3670	mm
Height to Hinge Pin	2900	mm
Total Length (w/ Bucket)	3380	mm
Total Width (w/ Bucket)	1740	mm
Ground Clearance	185	mm
