

Compact Step-Through Bicycle

This compact bicycle is designed with a step-through frame for easy access. It includes a rear derailleur to provide variable gear options.

Product Overview

Compact Urban Mobility

This compact step-through bicycle is engineered for efficient urban commuting and ease of use. Featuring a low-profile frame design, it allows for effortless mounting and dismounting, making it ideal for various riders. The bike is equipped with a reliable single chainring drivetrain and a rear derailleur for versatile gear changes, ensuring a smooth ride across city environments.
