

Compact Tile Saw with Water Cooling

This compact tile saw is designed for precise and efficient tile cutting. It features a water cooling system to minimize dust and extend blade life.

Product Overview

Compact Tile Saw with Water Cooling

This compact and robust tile saw is engineered for precise and efficient tile cutting in professional and DIY environments. It features an integrated water cooling system designed to minimize dust output while significantly extending the lifespan of the cutting blade. With an adjustable cutting guide for accuracy and a built-in safety guard, this tool provides a reliable solution for high-quality tiling projects.

Key Features

Core Capabilities

- Integrated water cooling system
- Adjustable cutting guide
- Safety guard included
- Compact and robust design

Performance

Performance Highlights

1 Integrated
Cooling System

1 Included
Safety Guard

Application

Best For

Professional Tiling, DIY Projects
