

# Compact Tractor Series

These compact tractors come in 101 and 181-201 series. They feature engine models with power ranging from 6.25 kW to 14.7 kW and are designed for agricultural tasks.

## Overview

### Compact Tractor Series

This series of compact tractors is designed for versatile agricultural and field operations, offering two distinct model ranges to suit different power requirements. The 101 series provides a lightweight solution with multiple engine configurations, while the 181-201 series delivers increased traction and power for more demanding tasks. Both series feature adjustable wheel treads and robust build quality, ensuring reliability and operational efficiency for professional farming needs.
