

Compact Tractor with Front-End Loader

This compact tractor is designed for agricultural and construction tasks. It features a front-end loader attachment and hydraulic lift system for loading and material handling.

Overview

Versatile Compact Tractor

This compact tractor is engineered for high maneuverability and efficiency in both agricultural and construction environments. Equipped with a robust front-end loader and a powerful hydraulic lift system, it is designed to handle demanding material handling tasks with ease. Its compact design ensures excellent performance in tight spaces, making it a reliable solution for diverse site requirements.

Technical Specifications

Model Designation	HONGLYU700TX-GS
Tire Specification	16R26/16R26

Key Features

Key Equipment

Front-End Loader • Hydraulic Lift System • Heavy-Duty Tires

Primary Applications	Agriculture, Construction, Material Handling
