

Compact Urban Commuter Bicycle

This bicycle is designed for urban commuting and recreational riding. Its compact design makes it ideal for storage in small spaces.

Product Overview

Versatile Urban Mobility

The Compact C24 is a bicycle designed specifically for urban commuting and recreational riding, balancing agility with practicality. Its lightweight frame ensures easy maneuverability through city streets and convenient transport when not in use. With a multi-speed drivetrain and reliable braking system, it is well-equipped to handle diverse urban terrains safely and efficiently.
