

Compact Wheel Loader

This mini loader is a compact and versatile construction machine. It is designed for efficient material handling in various applications.

Overview

Compact Wheel Loader Performance

The ZL-10 is a versatile and robust compact wheel loader designed for efficient material handling in confined environments. With a 1000 kg rated load and a 0.4 m³ bucket capacity, this machine delivers reliable power and precise hydraulic control. It is built for productivity and operator comfort, making it an ideal choice for construction and site maintenance tasks.
