Overview

High-Performance Electric Wheel Loader

The 810E Electric Wheel Loader is a versatile and compact machine engineered for efficiency in construction, landscaping, and agricultural applications. Built with advanced AC controller technology and CANBus data integration, it offers precise control and reliable performance. Designed with operator comfort and ease of maintenance in mind, this loader features an ergonomic cab and a fully overturning hood for quick service access.

Power & Control

Battery Capacity

400 Ah

Lithium Battery

Control System

Italy SME controller system

Technology

Advanced AC Controller, CANBus Data Technology

Design & Maintenance

Design Features

- Advanced ergonomic engineering
- Safety and comfortable driver protection guard/Cab
- Quick change attachment system

Maintenance

Whole hood can be overturned for convenient access
