

Concrete Floor Vibrating Screed with Gasoline Engine

This concrete floor vibrating screed is equipped with a gasoline engine for reliable performance and easy starting. Its steel frame and adjustable screeding mechanisms facilitate smooth and level concrete surfaces.

Product Overview

Professional Concrete Vibrating Screed

This modular concrete vibrating beam is designed for high-efficiency ground compaction, leveling, and tamping. Its adaptable framework allows for construction surfaces ranging from 4m to 18m, making it highly versatile for various project scales. Built with a robust steel structure and a high-performance gasoline engine, it ensures reliable operation and consistent results in demanding construction environments.

Technical Specifications

Model Specifications

| Feature | OKS-55 | OKS-90 | OKS-130 |
|---------------|-----------|---------|----------|
| Power | 5.5 HP | 9.0 HP | 13.0 HP |
| Fuel Tank | 3.6 L | 6 L | 6.5 L |
| Lubricant | 0.6 L | 1.1 L | 1.1 L |
| Working Width | 4m - 6.5m | 7m - 9m | 9m - 18m |

| | |
|-------------|---|
| Engine Type | Gasoline engine, air cooled, 4-stroke, OHV, single cylinder |
|-------------|---|

| | |
|---------------|-------|
| Working Depth | 26 cm |
|---------------|-------|

Key Features

Design Highlights

- Modular design for adjustable working width (4m to 18m)
- Universal joint allows 10-30 degree arch adjustment
- Robust steel structure for high durability
- Corrosion-resistant surface spray finish
- High-speed spindle bearing for long-term reliability

| | |
|------------------------|--|
| Maintenance & Assembly | Easy Assembly, Easy Disassembly, Low Maintenance, Anti-Rust Finish |
