

Concrete Mixer Truck

This heavy-duty concrete mixer truck is designed for efficient on-site concrete mixing and transportation. It features a robust rotating drum for continuous mixing, ensuring consistent concrete quality.

Overview

High-Performance Concrete Mixer Truck

This heavy-duty concrete mixer truck is engineered for reliability and efficiency in demanding construction environments. Built on a robust chassis, it features an advanced mixing system and a high-power diesel engine to ensure consistent concrete quality and operational flexibility. With its durable construction and integrated hydraulic components, this vehicle is designed to handle rigorous transport and mixing tasks effectively.

Technical Specifications

Dimensions	10650 x 2500 x 4000 mm
Vehicle Weight	17620 kg
Rated Load Capacity	13250 kg
Wheelbase Configuration	1800 + 3400 + 1350 mm

Engine & Performance

Engine Power

247 kW

Power Output

336 PS

Horsepower

Emission Standard

Stage III

Mixing System

Hydraulic System

- Imported hydraulic pump
- Imported hydraulic motor
- Imported reducer

Agitation Volume	37 m ³
------------------	-------------------

Equipment Features

Cab Configuration	Single sleeper, Air conditioning
-------------------	----------------------------------
