

Confirmat Screw NF-CS04

The NF-CS04 Confirmat Screw is a specialized fastener designed for robust and precise joining. Featuring a countersunk head and coarse thread, it ensures secure engagement in wood and composite materials.

Product Overview

Confirmat Screw NF-CS04

The NF-CS04 Confirmat Screw is a specialized fastener engineered for robust and precise joining in woodworking applications. Featuring a countersunk head and a coarse thread pattern, it is optimized for secure engagement in wood and composite materials. Constructed from high-strength steel with corrosion-resistant plating, this screw provides reliable clamping force and long-term durability for furniture assembly and cabinet making projects.

Technical Specifications

Material	High-strength steel
Finish	Corrosion-resistant plating
Head Style	Countersunk
Thread Pattern	Coarse

Applications

Compatible Materials

- Wood
- Composite Materials

Recommended Uses

Furniture Assembly, Cabinet Making, General Woodworking
