

Conveyor Belt Chain

This chain is designed for use in conveyor belt systems. It facilitates the movement of materials in a variety of industrial applications.

Product Overview

High-Performance Conveyor Belt Chain

This conveyor belt chain is engineered for robust performance in industrial material handling environments. Designed to withstand continuous operation, it ensures reliable transport of goods across production lines. Its durable construction minimizes maintenance requirements while maximizing throughput efficiency for demanding B2B applications.

Technical Specifications

Tensile Strength

45 kN

Breaking Load

Material Composition	Carbon Steel, Stainless Steel, Industrial Grade
Chain Pitch	38.1 mm

Performance Features

System Compatibility

- Standard conveyor sprockets
- High-speed automated lines
- Heavy-duty roller systems

Surface Finish

Zinc Plated • Corrosion Resistant • Heat Treated
