

Cordless 40V Electric Grass Trimmer

This cordless grass trimmer is a versatile tool for lawn and garden maintenance. It is powered by a 40V lithium-ion battery and features a lightweight design and adjustable handle for comfortable operation.

Overview

High-Performance Cordless Trimming

This 40V Electric Grass Trimmer provides the power of a petrol engine with the convenience of cordless operation. Its lightweight, ergonomic design features an adjustable handle to ensure user comfort during extended lawn maintenance tasks. Equipped with a durable cutting head and automatic line feed, it is the ideal solution for professional edging and trimming around garden obstacles.
