Product Overview

Professional Axial Press Solution

This battery-powered axial press tool is designed for creating secure, reliable connections in PEX piping systems. Engineered for portability and efficiency, it offers cordless operation to increase maneuverability on job sites while reducing user fatigue. The tool features a compact, lightweight design with a rotating head, making it ideal for accessing tight spaces in plumbing and HVAC installations.

Technical Specifications

Power Source	18V Li-ion Battery
Weight	3.4 kg
Key Features	Cordless, Compact Design, Rotating Head, Hydraulic Mechanism

Performance Metrics

Performance Highlights

18 V Voltage	3.4 kg Weight
