

Cordless Brushless Impact Drill

This cordless brushless impact drill delivers increased power and extended runtime compared to traditional brushed motors. It includes variable speed control, multiple torque settings, and an LED light for enhanced visibility.

Overview

High-Performance Brushless Drilling

This 18V cordless impact drill features a high-performance brushless motor designed for increased power, extended runtime, and a longer service life. Equipped with a 1/2" metal keyless chuck and a variable speed trigger, it provides precise control for both professional and DIY drilling or fastening tasks. The ergonomic design and built-in LED light ensure comfortable and efficient operation even in dark or confined workspaces.

Performance

Performance Highlights

50 N.M

Max Torque

18 V

Voltage

28800 BPM

Impact Rate

Technical Specifications

Speed Configuration

Setting	No-Load Speed (RPM)
Speed 1	0-500
Speed 2	0-1800

Torque Adjustment	20+1+1+1 Settings
Chuck Capacity	1/2" Metal Keyless Chuck

Features

Core Features

- Brushless Motor Technology
- Variable Speed Trigger
- Built-in LED Work Light
- Ergonomic Grip Design
- Impact Functionality

Power System

Battery Platform

18V Li-ion • Cordless
