

Cordless Brushless Power Drill, 18V, 80N.M Torque

This cordless brushless drill is engineered for drilling and fastening tasks. Its brushless motor ensures increased efficiency and extended motor life, while the 18V Li-Ion battery delivers ample power.

Overview

High-Performance Brushless Power

This 18V Cordless Brushless Drill is engineered for high efficiency and extended motor life, making it ideal for demanding professional applications. With a powerful 80N.M maximum torque and a dual-speed gearbox, it provides the versatility needed for both high-torque fastening and high-speed drilling. The ergonomic design and integrated LED light ensure precision and comfort even in dark or confined workspaces.

Performance Metrics

Key Performance Indicators

80 N.M

Max Torque

18 V

Voltage

2000 RPM

Max Speed

Technical Specifications

No-Load Speed

Gear Setting	Speed Range
Speed 1 (Low)	0-550 rpm
Speed 2 (High)	0-2000 rpm

Operating Voltage: 18 V

Torque Settings: 19+1 Adjustable Settings

Hardware Details

Motor Technology

Brushless

Chuck Specification: 1/2" Metal Keyless Chuck

Battery & Runtime

Estimated Working Time

Battery Capacity	Low Speed Runtime	High Speed Runtime
2000mAh	26 mins	20 mins
4000mAh	52 mins	40 mins

Features

Functional Features

- Variable speed control for precision
- Adjustable clutch to prevent overdriving
- Integrated LED work light
- Ergonomic handle for reduced fatigue
- Compact and lightweight design
