

Cordless Electric Kettle with Automatic Shut-Off

This electric kettle quickly boils water for various hot beverages. It features a cordless design, automatic shut-off, and a water level indicator.

Product Overview

Efficient Cordless Design

This cordless electric kettle is designed for quick and efficient boiling of water for tea, coffee, and other hot beverages. Featuring a concealed heating element and a user-friendly design, it ensures safety and convenience in any professional or kitchen environment. The separate base unit and integrated water level indicator make it an ideal choice for daily hot water needs.
