

Cordless Electric Pruning Shears

The cordless electric pruning shears are designed for efficient and effortless pruning. Powered by a 21V battery, these shears provide ample power for cutting branches with ease.

Product Overview

Professional Cordless Pruning Solution

These cordless electric pruning shears are engineered for efficient and effortless pruning in various professional settings. Powered by a reliable 21V battery system, they provide consistent cutting power for branches while minimizing manual effort. The ergonomic handle design ensures operator comfort, reducing fatigue during extended gardening, landscaping, or orchard maintenance tasks.

Technical Specifications

Performance Metrics

21 V

Voltage

Power Source	21V Battery
Motor Type	Brushless
Key Features	Cordless, Brushless Motor, Ergonomic Design, High Efficiency

Applications

Ideal Applications

- Gardening
- Landscaping
- Orchard Maintenance
