

Cordless Electric Snow Thrower with Battery

This cordless snow thrower is powered by a 60V battery and has an 18-inch clearing width. It is designed for efficient snow removal with a durable auger and directional chute.

Product Overview

High-Performance Cordless Snow Clearing

This high-performance cordless electric snow thrower utilizes advanced Lithium-Ion battery technology to replace conventional gasoline power, ensuring zero emissions and low operational noise. Designed for residential efficiency, it features an 18-inch clearing width and a lightweight, maneuverable frame for easy use on driveways and walkways. The unit combines energy-saving performance with durable construction, making it an ideal eco-friendly solution for winter maintenance.

Technical Specifications

Battery Capacity

5 Ah Capacity	40 V Voltage
-------------------------	------------------------

Clearing Width: 18 inch

System Voltage: 60 V

Model Number: ION18-PRO

Features

Key Features

- Zero emission and low noise operation
- Durable auger system
- Directional chute for controlled snow throwing
- Unique tire design for shock absorption
- Lightweight and miniaturized design

Environmental Impact: Zero Emission, Energy Saving, Eco-Friendly
