

Cordless Espresso Maker

This cordless espresso maker features a stainless steel body with an orange base and handle. It provides a convenient way to brew espresso without cords, ideal for home or travel.

Overview

Versatile Cordless Espresso Solution

The BW-2818Y is a versatile cordless espresso maker designed for both home and travel convenience. Featuring a 4-cup capacity and a concealed heating element, it offers a safe and efficient brewing experience without the constraints of a fixed power cord. With its removable filter and cold-touch handle, this coffee maker prioritizes ease of use and simple maintenance for professional and personal environments.
