

Cordless Handheld Vacuum Cleaner

This compact vacuum cleaner is designed for quick and convenient cleaning tasks. Its cordless operation and multiple attachments provide versatile cleaning options for homes, offices, and cars.

Overview

Professional Cleaning Utility

The BST-804 is a compact, cordless handheld vacuum cleaner engineered for high-efficiency quick cleaning in professional or residential environments. Its ergonomic, portable design provides maximum freedom of movement, while the high-performance suction system effectively removes dust and debris from varied surfaces. The unit includes a transparent dust container for immediate capacity monitoring and comes with a versatile suite of attachments for targeted cleaning tasks.
