

Cordless LED Work Light

This portable LED floodlight provides bright and efficient illumination for various applications. Its integrated battery allows for cordless operation, and the adjustable stand enables versatile positioning.

Product Overview

Professional Cordless Illumination

This portable LED floodlight is engineered for demanding environments, offering reliable cordless operation powered by an integrated battery. Designed with a durable yellow and black housing, it withstands the rigors of construction sites and workshops. The high-intensity LED array ensures bright, energy-efficient lighting, while the adjustable stand allows for precise angle control to suit any task.

Technical Specifications

Light Source	High-intensity LED array
Power Source	Integrated battery (cordless)

Physical Attributes

Color	Yellow, Black
Adjustability	Yes

Applications

Ideal For

- Construction sites
- Workshops
- Outdoor applications
