

Cordless Lithium Battery Snow Shovel

This cordless snow shovel is powered by a 40V lithium battery, available in multiple Ah options. It features a design that balances the battery and motor for easy operation and includes a quick-locking handle.

Product Overview

High-Performance Cordless Snow Removal

This cordless snow shovel is engineered for efficient snow removal without the need for gasoline, offering a zero-emission and low-noise alternative for winter maintenance. Powered by a high-performance 40V lithium-ion battery system, it provides stable performance and energy efficiency. The unit is designed with comfort in mind, featuring a unique tire design for shock absorption and a quick-locking handle for smooth operation.

Technical Specifications

Voltage

40 V

Max Voltage

Battery Capacity Options

- 2.0 Ah
- 2.5 Ah
- 4.0 Ah
- 5.0 Ah

Model Number

D2HT424-A

Design & Features

Key Design Features

Cordless, Zero Emission, Low Noise, Shock Absorbing Tires, Quick-Locking Handle, Balanced Weight Distribution

Environmental Impact

Eco-Friendly Attributes

Zero Pollution • Energy Saving • Recyclable Materials
