

Cordless Power Chainsaw

This cordless chainsaw offers gas-powered performance with electric convenience. Its features include a high-performance motor, durable Oregon bar and chain, and a tool-less chain tensioning system.

Overview

High-Performance Cordless Cutting

This cordless chainsaw combines the power of gas-operated machinery with the ease and maintenance of electric tools. Featuring a high-performance motor and a premium Oregon bar and chain, it is designed for efficient pruning, limbing, and light tree felling. The ergonomic construction and safety-first features like the mechanical chain brake ensure a comfortable and secure user experience for professional landscaping tasks.

Power & Performance

Performance Metrics

36 V

Operating Voltage

8.5 m/s

Chain Speed

4500 min-1

Rotate Speed

Battery Configuration

2 x 18V

Cutting Equipment

Bar & Chain Details

Component	Specification
Bar Length	12" / 14"
Chain Brand	Oregon
Chain Type	Low Kickback
Tensioning	Tool-less system

Lubrication System

Oil Management

- Automatic Chain Oiler
- 150ml Oil reservoir capacity
- Integrated Oil Level Window

Safety & Ergonomics

Safety and Handling

Mechanical Chain Brake • Soft Grip Handle • Hand Guard • Low Kickback Chain
