

# Cordless Rechargeable LED Work Light

This cordless LED work light is designed for portable illumination in various work environments. It features a rechargeable battery, adjustable stand, and durable, impact-resistant housing.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Cordless LED Work Light

This portable LED work light is engineered for industrial and commercial environments, offering high-intensity COB illumination in a rugged, impact-resistant housing. Designed for versatility, it features a swivel carry handle and an optional magnetic base for hands-free operation in demanding workspaces. With integrated power bank functionality and multiple lighting modes, it serves as a reliable tool for inspection, maintenance, and emergency use.

## Key Performance Metrics

### Performance Highlights

**800 lm**

Max Brightness

**10 W**

Power Rating

**65**

IP Rating

## Technical Specifications

Comprehensive feature set including USB charging, magnetic base options, and durable COB LED construction.

### Model Specifications

Model	Power	Battery Type	Lumens	IP Rating
001W	10W	3.7V 4.4Ah Li-ion	800lm/400lm	65
002W	10W	3.7V 4.4Ah Li-ion	800lm/400lm	65
003W	5W	4*AA (not included)	450lm	44

### Battery & Charging

Operation Time	3-6 hours (Models 001W/002W)
Charging Duration	5-6 hours
Power Bank Function	Yes

### Construction & Durability

Housing Material	Die-cast aluminum with reinforced corners
Impact Protection	IK08
Working Temperature	-20°C to 55°C

### Lighting Features

Light Source	Super bright COB LED chip
Color Temperature	2700K ~ 6500K
Color Rendering Index (Ra)	80
Lighting Modes	High, Low, Flash

### Functionality

#### Mounting & Handling

- Swivel carry handle
- Adjustable stand for positioning
- Optional built-in strong magnet

### Compliance

#### Standards & Efficiency

Class III • Energy Class A+ • CE • RoHS
