Product Overview

Professional Cordless Fabric Maintenance

This rechargeable lint remover is an essential tool for maintaining the appearance of clothing, upholstery, and bedding. Designed with a high-speed rotating blade system and a protective mesh, it safely eliminates lint, fuzz, and pilling from various fabrics including wool, cotton, and synthetic materials. The cordless, ergonomic design ensures portability and ease of use, while the integrated safety features provide peace of mind during operation.

Technical Specifications

Battery Capacity	600 mAh
Battery Chemistry	Ni-mh
Power Source	USB Rechargeable
Speed Settings	2

Features

Device Attributes	Cordless, Ergonomic, Safety Protection, Removable Collection Container
Blade Material	Stainless Steel

Usage Compatibility

Supported Fabrics

- Wool
- Cotton
- Synthetic Materials
- Upholstery
- Bedding
