

Cordless Telescopic Pole Saw and Trimmer

This cordless tool combines a pole saw and trimmer for versatile use. It features a telescoping pole, rechargeable battery, and safety features for pruning and maintaining trees and shrubs.

Product Overview

Versatile Cordless Pruning Solution

This cordless telescopic pole saw and trimmer is designed for efficient maintenance of trees, shrubs, and hedges. Featuring a telescoping design, it provides extended reach for pruning tasks while eliminating the need for cumbersome power cords. The tool is engineered for ease of use, making it suitable for both professional landscaping and home gardening applications.
