

Countertop Glass Display Case

This countertop display case features a black frame with silver accents and multiple glass shelves. It is designed with a clear glass front and sides to maximize product visibility, making it suitable for displaying pastries, desserts, or retail merchandise.

Overview

Professional Countertop Display

This countertop glass display case is designed for optimal product visibility and food preservation in retail environments. Featuring brilliant internal LED illumination and clear, double-tempered glass, it ensures your pastries, desserts, and other merchandise are showcased attractively. The unit includes a digital temperature controller and an advanced air duct system to effectively manage condensation.
