

Countertop Hot and Cold Water Dispenser

This compact water dispenser provides hot, cold, and ambient temperature water. Designed for countertop use, it features a durable white plastic housing, indicator lights, and a drip tray.

Product Overview

Compact Temperature-Controlled Dispenser

This countertop water dispenser offers a versatile solution for office and home environments, providing instant access to hot, cold, and ambient temperature water. Designed for convenience and efficiency, the unit features a durable housing with clear indicator lights for operational status. Its compact footprint and integrated drip tray make it an ideal choice for maintaining a clean and functional hydration station.
