

Countertop Kitchen Blender with Additional Blending Cup

This countertop blender features a clear, graduated blending jar with a handle and lid, mounted on a white base. It also includes a smaller blending attachment for smaller quantities.

Product Overview

Versatile Countertop Kitchen Solution

This 400W countertop blender is designed for efficiency and durability in a busy kitchen environment. Featuring a long-life motor with built-in overheat protection, it ensures reliable performance for daily blending tasks. The unit includes a 1.5L plastic jar for larger batches and a dedicated grinder attachment for coffee beans, making it a versatile tool for various food preparation needs.
