

CP1P65F Engine

This engine features a simple structure for easy maintenance and stable operation with minimal vibration. Equipped with TCL transistorized ignition, it ensures reliable ignition and effortless starting.

Overview

Robust Power Solution

The CP1P65F engine is a robust and reliable power source engineered for versatility. Its compact design allows for seamless integration into various types of smaller machinery and equipment. Designed for durability, this engine ensures consistent performance under varying load conditions while maintaining efficient fuel consumption.
