

CP4 CP6 CP7 Series SMT Nozzles

Precision-engineered nozzles are designed for high-performance machinery and industrial applications. Available in sizes 0.7mm, 1.0mm, 1.3mm, 1.8mm, and 2.5mm, they accommodate various dispensing requirements.

Overview

Precision SMT Nozzles

These precision-engineered nozzles are designed for high-performance machinery and industrial applications, ensuring accurate and consistent material deposition. Available in a range of sizes, they are built to accommodate various dispensing requirements, contributing to enhanced operational efficiency and product quality. They are ideal for use in general machinery and other specialized industrial equipment.

Technical Specifications

Available Nozzle Sizes

- 0.7mm
- 1.0mm
- 1.3mm
- 1.8mm
- 2.5mm

Primary Application

SMT Assembly • Industrial Machinery • Material Deposition

Compatible Series

CP4, CP6, CP7
