

CR2016 3V Lithium Coin Cell Battery

This 3V lithium coin cell battery is commonly used in small electronic devices. It provides a stable voltage output and a low self-discharge rate, ensuring consistent performance and extended shelf life.

Product Overview

Reliable Power for Compact Devices

The CR2016 3V Lithium Coin Cell Battery is designed to provide stable, long-lasting power for a wide range of small electronic devices. With a low self-discharge rate and a 5-year shelf life, this battery ensures consistent performance even after extended storage periods. It is an environmentally conscious choice, manufactured without mercury or cadmium, making it suitable for professional and consumer applications.

Technical Specifications

Nominal Voltage	3 V
Rated Capacity	75 mAh
Dimensions	20.0mm x 1.6mm
Shelf Life	5 years
Storage Performance	After 12 months storage, capacity remains at least 80% of original

Compliance & Environment

Environmental Compliance

Non-Hg • Non-Cadmium

Certifications	CE, ROHS, SGS, REACH, MSDS
----------------	----------------------------

Packaging & Logistics

Packaging Options

- Tray bulk
- Blister card
