

CRT Television with Flat Screen

This is a cathode ray tube (CRT) television with a flat screen display. The television features a standard 4:3 aspect ratio screen.

Product Overview

Classic Flat-Screen CRT Television

This cathode ray tube (CRT) television offers a reliable viewing experience with a distinct flat-screen design. Encased in a durable silver-colored plastic housing, it features a classic 4:3 aspect ratio, making it suitable for retro gaming, vintage media playback, or specialized display applications. The integrated control panel on the bottom bezel provides straightforward, tactile operation for all essential functions.
