

Cruiser Bicycle with Whitewall Tires

This cruiser bicycle features a curved frame and whitewall tires. It is equipped with a single-speed drivetrain, coaster brakes, a sprung saddle, and swept-back handlebars for a comfortable, upright riding position.

Product Overview

Designed for Leisure

This cruiser bicycle features a classic curved frame design paired with stylish whitewall tires, offering a visually appealing aesthetic for casual riders. Built for comfort, it includes swept-back handlebars and a sprung saddle that promote an upright, relaxed riding posture. Ideally suited for leisure activities on paved surfaces, this bicycle provides a smooth and enjoyable user experience.
